

Certification(s) Grace Period Policy

All PATH Intl. Centers in good standing will be given 24 months to comply with the specialty requirements for certification and the core standard for certification when a new PATH Intl. certification becomes required. In the interim the center must meet Standard MA1* by having a PATH Intl. Certified Riding Instructor present as well as the Instructor-in-Training for the specialty activity during the time the specialty activity is taking place.

Example: January 1st of 2020 PATH Intl. launches the certification and specialty standards for Juggling. This means that any and all PATH Intl. Centers currently offering Juggling will be given 24 months in which their instructor(s) of Juggling must become certified and in compliance with both MA1* and the specialty standard for certification as well

Policy Proposed: 10/24/08
