About PATH Intl.:

Professional Association of Therapeutic Horsemanship International (PATH Intl.) was formed in 1969 to promote equine-assisted activities and therapies for individuals with special needs. At nearly 850 member centers, more than 56,000 children and adults find a sense of independence through involvement with horses. These member centers range from small, one-person programs to large operations with several certified instructors and licensed therapists. In addition to therapeutic equitation, a center may offer any number of equine-assisted activities including hippotherapy, equine-facilitated mental health, driving, interactive vaulting, trail riding, competition, ground work or stable management. Through a wide variety of educational resources, the

association helps individuals start and maintain successful equine-assisted activities and therapies for individuals with special needs. There are nearly 52,000 volunteers, 4,232 instructors, 7,503 equines and thousands of contributors from all over the world helping people at PATH Intl. centers.
